## Learning the Montessori Way: Numbers & Counting

The Montessori Spindle Box With 45 Spindles is next in line. This activity is the first to introduce individual quantities while counting. Montessori Primary Guide provides a video and step by step instructions for the presentation and lesson of this work. Natural Beach Living shares a DIY option of this material, if you can't afford the real deal.

## Ordinal Numbers Activity, Montessori Math At Home ...

Making Montessori Ours is a collection of our passions and experiences with Montessori and Homeschooling. ... I used a big egg play egg and loaded it with our objects and ordinal number labels. You can use anything you have on hand for the objects. You can certainly hand write your labels as well.

## Montessori For Learning: Ordinal Numbers

With three children, it is quickly realized what first, second, and third mean in our world. Who gets to have the "first" chocolate milk served to them tonight at dinner, who gets to go "first" or "second" spraying the hose on their siblings after I disconnect it from the sprinkler - the daily practical application of ordinal numbers in our life is endless.

## Group 1: Numbers 1 to 10 | Montessori Commons

They show the close relationship between Ordinal and Cardinal numbers; Material Description: Ten wooden rods, identical to the Red Rods, graded in length from 10 cms to 1 metre, each rod is coloured in alternate red and blue 10 cm long partitions. The first rod and the first partition in each succeeding rod is red; Working Mat

## Our Country Road: Ordinal Numbers

Ordinal Numbers-Montessori Style A recent lesson was on ordinal numbers through 10th place. Googling the idea, I found a great game that was first presented on Montessori in Mars and then again on Adventures of Bear. I thought the game looked perfect for our needs, so I printed it out.

## Method — Montessori School of Seattle

The Montessori Method is an educational approach designed to take full advantage of the child's self motivation and unique abilities. It is based on self-directed activity, hands-on learning and collaborative play. We aid the child in developing their intellectual, physical, and psychological abilities.

## first second third fourth fifth sixth seventh eighth ninth ...
