## **Overcoming Shock: Healing the Traumatized Mind and Heart ...**

Overcoming Shock: Healing the Traumatized Mind and Heart. When people experience trauma, they can be both damaged and shocked. While trauma is recorded in us psychologically, shock is recorded physiologically. This is why we can have both emotional and physical responses long after a traumatic event.

## **Review of Overcoming Shock (9780882824802) — Foreword Reviews**

Their eye-opening book, Overcoming Shock: Healing the Traumatized Mind and Heart, explains that while going into shock can help individuals regroup after a crisis, it can also lead them to shut down emotionally, physically, and spiritually over time. Through a unique combination of psychodynamic theory, regressive hypnotherapy, and intensive group work, Zimberoff and Hartman have helped many clients resolve their shock

responses and go on to lead happier lives.

## **Overcoming Shock: Healing the Traumatized Mind and Heart**

Unresolved shock reactions can affect every part of our lives, according to experienced therapists Diane Zimberoff and David Hartman. Their eye-opening book, *Overcoming Shock: Healing the Traumatized Mind and Heart*, explains that while going into shock can help individuals regroup after a crisis, it can also lead them to shut down emotionally,

## **Overcoming Shock: Healing the Traumatized Mind and Heart**

OVERCOMING SHOCK . In *Overcoming Shock*, Zimberoff and Hartman pool their decades of therapeutic experience to differentiate shock from trauma, trace the many ways shock reorganizes our psychic systems, survey the many kinds of experiences which generate shock, and provide a pragmatic approach to the relief of shock. The authors digest a wealth of physiological and psychological information in clear, easy-to-comprehend prose which serves therapist, victim, and family member well.
